Dear Mr. Nelson:

Thank you for your inquiry regarding rental plans we have available on IBM System/360 computers. Although not indicated in our advertisement, I should point out that our primary interest is in Model 30's and larger.

We would be pleased to give you a specific quotation based on an actual equipment configuration. This should include all components and devices thereon. We also need to know the length of initial term (normally two years and up) you desire, as well as an estimate of your average overtime usage, if any, during the initial term.

We look forward to hearing from you and hope we may be of service.

Sincerely yours,
